

# Horizon FD80

SA HELIODROMOM  
/ WITH HELIPAD

Prilagodavanje je kamen temeljac Horizon Yachts filozofije, zbog čega ovo brodogradilište sa ponosom zapošljava talentovani inženjerski tim koji konstantno razmatra napredne zahteve od kojih su mnogi prvi put realizovani na njihovim trenutno dostupnim modelima. Nedavno porinut FD80 nudi heliodrom na palubi broda, što je prvi put da je ta funkcija projektovana za ovaj model

Customization is a cornerstone of the Horizon Yachts philosophy, and the company proudly employs a talented engineering team to consider advanced customization requests – many of which are first-time features aboard current models. Recently launched, the FD80 hull six offers a touch-and-go helipad on the boat deck, which is the first time this feature has been engineered for this model

**D**izajn modela FD80 dopao se klijentu koji prvi put kupuje Horizon jahtu, i to zbog njegovog rasporeda sa četiri kabine, vlasničkog apartmana na glavnoj palubi, kluba na plaži na krmi i zatvorenog salona na gornjoj palubi. Krmena paluba izdašnih dimenzija, opremljena ugrađenom garniturom za sedenje i samostojećim stolom za ručavanje za osam osoba, sliva se kroz staklena vrata koja se potpuno otvaraju u glavni salon otvorenog tipa, opremljen mat hrastom i orahom kao dominantnim materijalom. Tu su i dnevni toalet i prijatna sivkastobela kožna ugaona sofa i prostor za sedenje. Nasuprot tome, prisutan je konvertibilni sto sa više namena koji se može koristiti kao radni sto, šank za doručak ili unutrašnji trpezarijski sto. Smeštena prema napred, kuhinja poseduje prozor koji se može otvoriti ili zatvoriti, sa nadstrešnicom i barskim stolicama za časkanje sa šefom kuhinje. Vlasnička kabina sa sopstvenim kupatilom projektovana je sa prostranim garderobom i velikim krovnim prozorom koji omogućava prodor prirodnog svetla.

Tri dodatne kabine sa sopstvenim kupatilom, smeštene na donjoj palubi, uključuju dve VIP kabine u pramcu na levoj strani, kao i kabinu sa dva odvojena ležaja (koji se mogu spojiti u jedan) sa desne strane. Prostrani deo za posadu, pozicioniran prema krmi u odnosu na mašinski prostor, može da primi četiri osobe. Potpuno opremljen klub na plaži poziva na interakciju sa morem sa platforme za plivanje koja može da se spušta i podiže, kao i da primi pomoćni čamac.

Na gornjoj palubi, vlasnik se odlučio za zatvorenu konfiguraciju gornjeg salona prema krmi od kormilarnice, pri čemu je ceo krmeni deo palube posvećen heliodromu. Ova karakteristika je ranije ugrađena za vlasnika jednog primerka modela FD85, ali ovo je prvi put da je projektovana na modelu FD80, čiji hidraulički sklopivi čvrsti krov omogućava pogodan razmak lopatica rotora. Dodatna sedišta i trpezarija sa stolom podesive visine projektovani su na prednjoj palubi.

Ovaj primerak vlasnik je nazvao „AMPHIB“, a novi FD80 bi trebalo da bude isporučen ovog proleća.

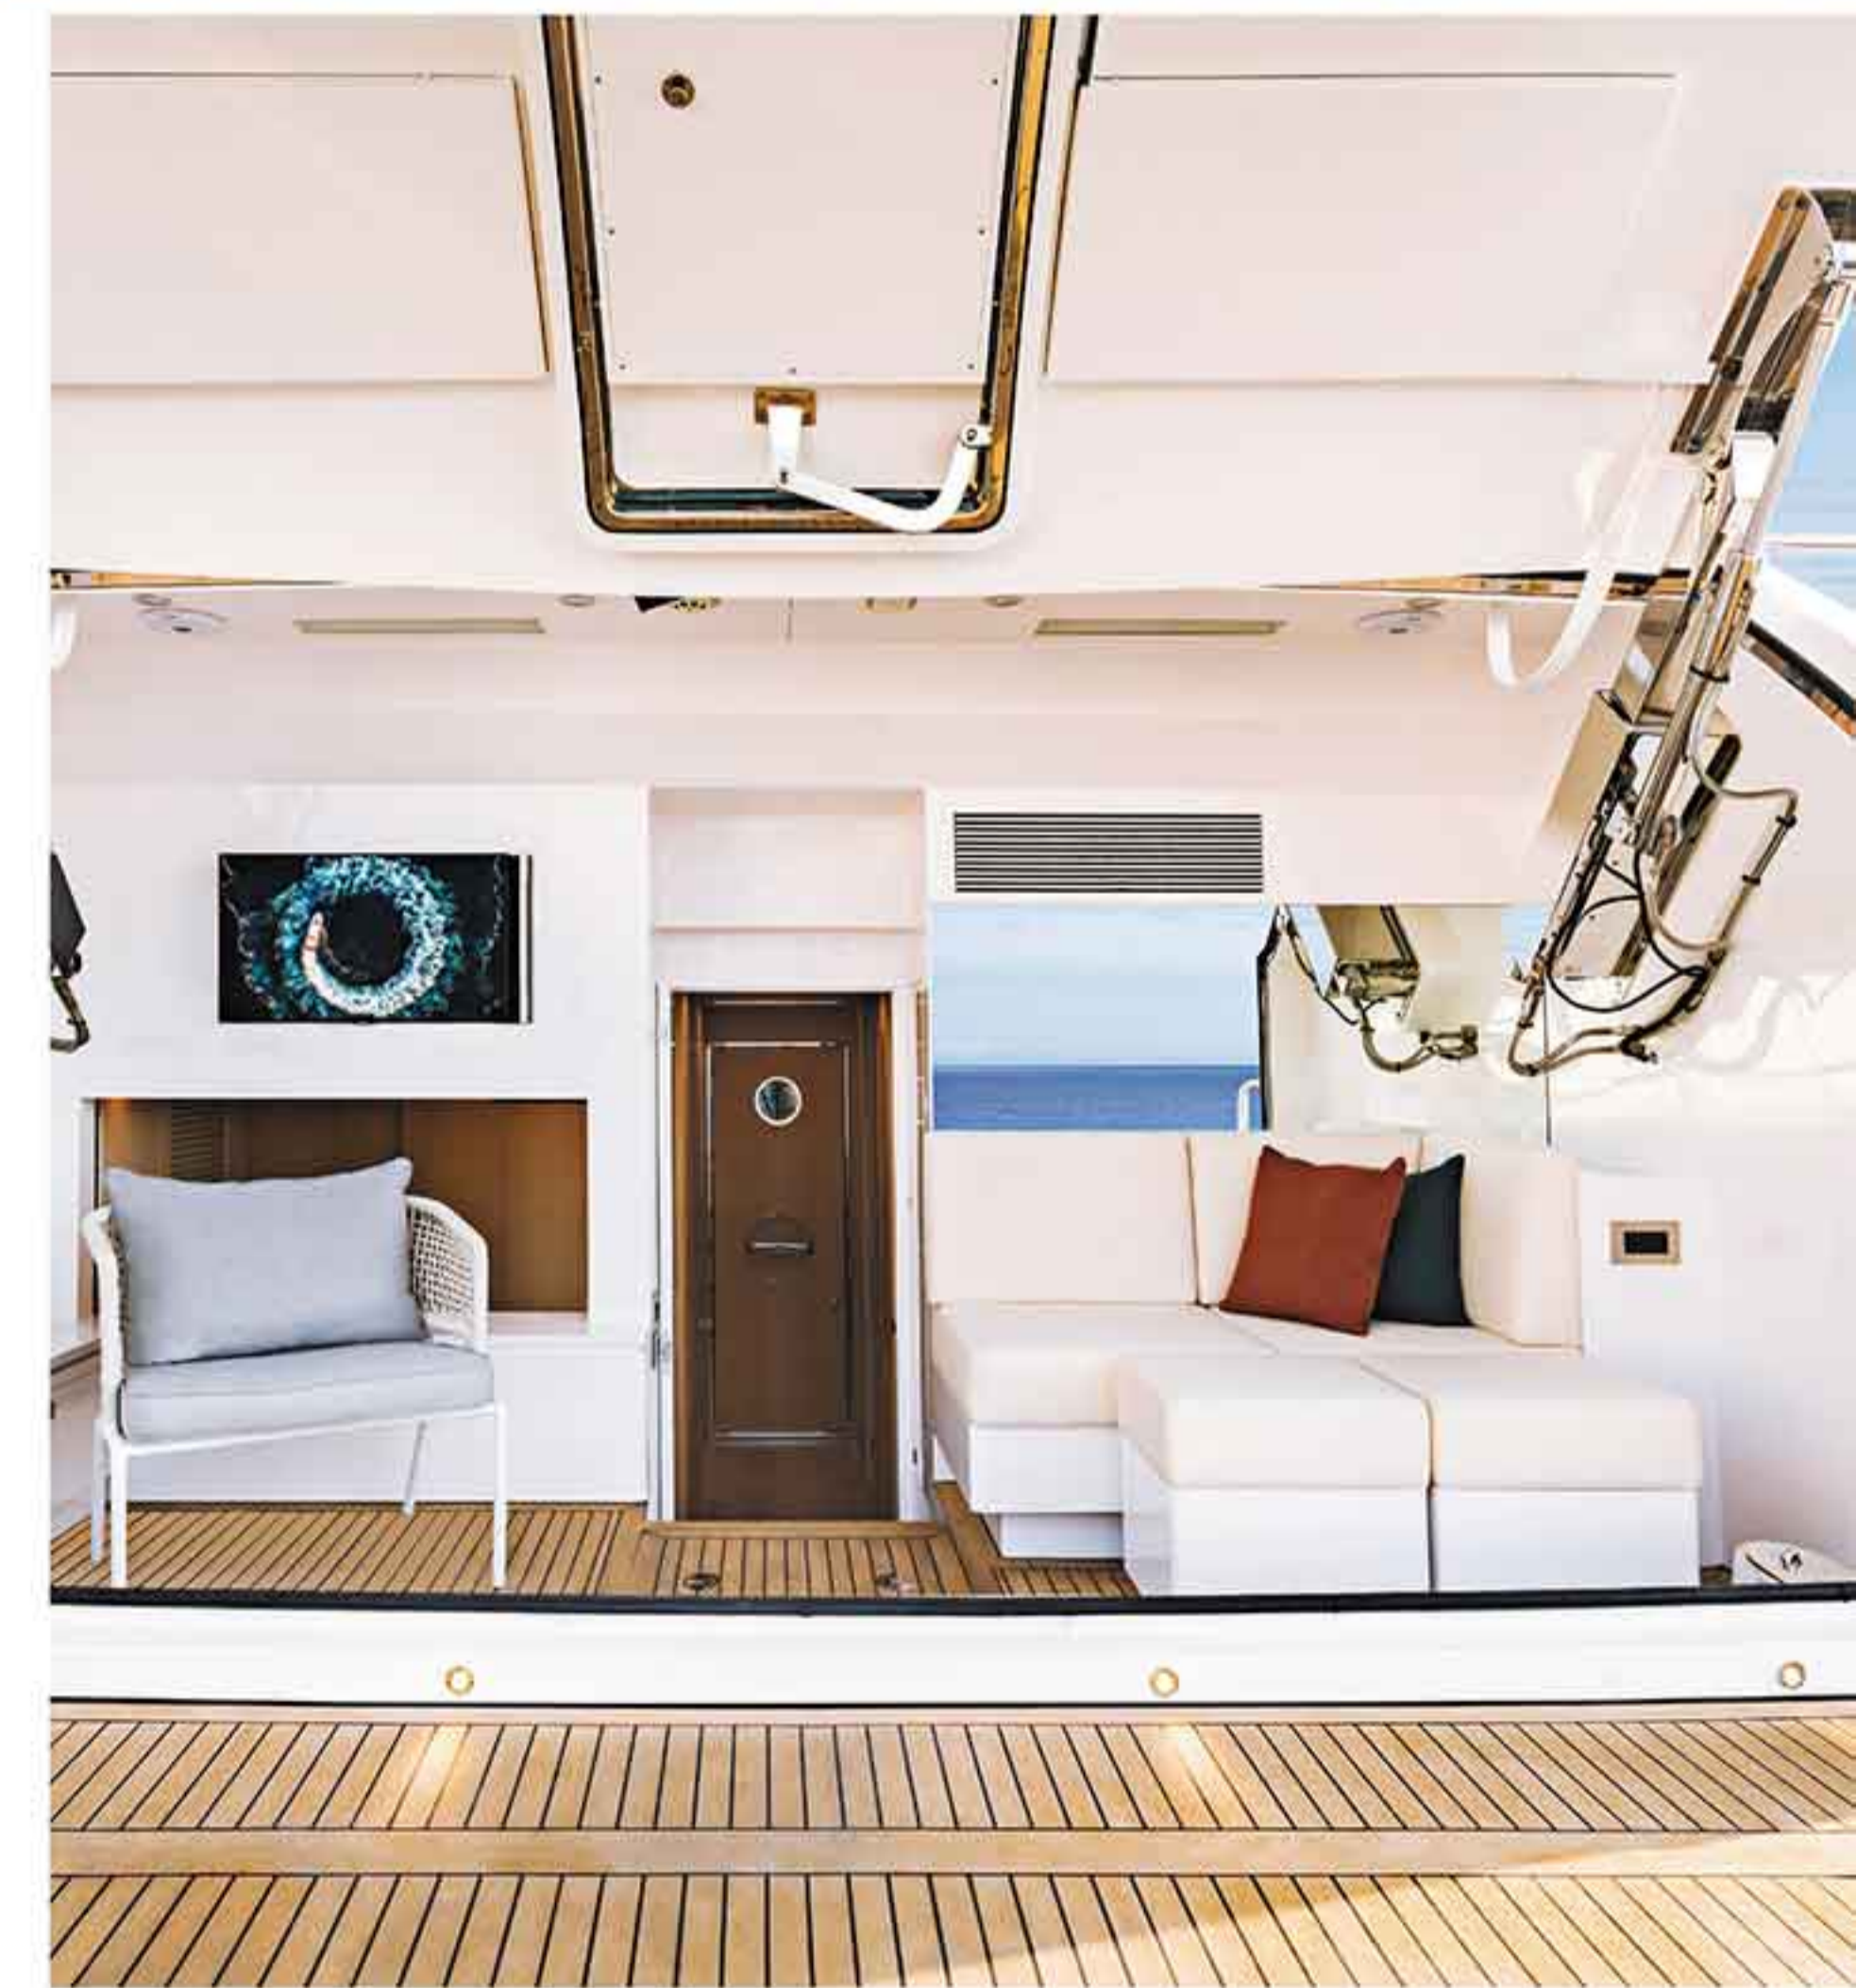

**T**he design of the FD80 appealed to the first-time Horizon owner for its four-stateroom layout, on-deck master suite, aft beach club and enclosed skylounge. A generous aft deck fitted with a built-in settee and a freestanding dining table for eight segues through fully opening glass doors into the open-plan main salon, which is fitted with matte oak and walnut as the main woods and features a dayhead aft to port and a convivial off-white leather L-shaped sofa and seating area. Opposite, a convertible table serves multiple roles as a work table, breakfast bar or interior dining table. The galley forward features a privacy window that can be opened or closed, with a counter overhang and bar stools for conversing with the chef. The master ensuite is situated forward and has been designed with a spacious walk-in closet and a large skylight that floods the room with natural light when open.

Three additional ensuite staterooms comprising two VIPs in the bow and to port and a convertible twin to starboard are situated on the lower deck, while spacious crew quarters for four aft of the engine room. A fully equipped beach club invites interaction with the sea from the Hi/Lo swim platform that can accommodate the yacht's tender.

On the upper deck, the owner opted for an enclosed skylounge configuration aft of the helm station, with the entire aft portion of the boat deck dedicated to the yacht's helipad. This feature has been incorporated for an owner of an FD85, but is the first to be designed aboard an FD80 model. On this hull, a hydraulic, folding hardtop overhang allows for convenient rotor blades clearance. Additional seating and dining with a Hi/Lo table is designed for the foredeck.

Named 'AMPHIB' by her owner, the new FD80 is scheduled to be delivered in the Spring of 2022.
