

HORIZON FD87 SKYLINE

Once again, world-class Taiwanese builder Horizon Yachts is presenting something special this year at Cannes with two brand-new models from the popular and successful FD Series: the FD87 Skyline hull no. 7 and hull no. 10 on the Super Yacht Extension (SYE) at stand SYE230 and berth SYE039.

These are advanced fast displacement (FD) motoryachts that marry impressive interior volume with superior cruising capabilities. Designed with the Skyline (enclosed bridge) configuration, the yachts retain the FD Series' signature head-turning exterior styling penned by yacht designer Cor D Rover, atop the proven High Performance Piercing Bow design and hull platform.

The Horizon FD87's extended length allows for even more amenities in a yacht that feels like a 100ft-plus boat. Offering a five-stateroom layout with an enclosed skylounge on the upper deck, the new FD87 Skyline hull no. 10, which has obtained CE marking, incorporates superyacht amenities into its voluminous design.

The ingeniousness of the FD Series design underscores why Horizon has, to date, sold 25 FD Series yachts in less than three years.
