

DOCK WALK (continued)

HORIZON POWER CATAMARANS

Horizon Power Catamarans celebrates its 10th anniversary by showcasing the Horizon PC52 (52' 2" LOA, 22' beam) and PC60 (61' 7" LOA, 24' 6" beam, left). The PC52 features Miele appliances, a glass-sided flybridge, and modern Switzerland Oak interior. The boat sleeps up to six guests comfortably in a master suite, a VIP suite, and a twin cabin and is designed with a 4-foot, 6-inch draft which is perfect for the Bahamas. The fully customized PC60 reveals how she meets the owners' specifications. The PC60 typically boasts an on-deck master, but these owners wanted the large salon and island galley with 360-degree window views. The owner's stateroom fills the entire starboard side with two ensuite staterooms to port. This Open Salon model still has an expansive flybridge deck and can reach a top speed of 23 knots. horizonpowercatamarans.com
